Remarks: Jim: The ball appears to be in FE's hands. However, GG/F and I agree that it should not be allowed to go out of play for lack of OPR encouragement. While I suspect the presence of social niceties in speeches like this one to the Chinese Com., the working arrangements they discussed may promise the kind of regularized relationship with the DD/P that we have strived for. Because of the broad inter-Area aspects of what could develop, I think the matter might be worthy of discussion
